No. of Bearings: 1  
Insulation Class: H  
Excitation System: Permanent Magnet  
Generator Voltage: 400 V  
Frequency: 50Hz

**Price: Reasonable offers please**

## General

CAT 3516DITA unit in excellent condition. Electric start fitted, Caterpillar SR4 Generator end. This unit was originally removed from a London bank after completing only 626 hours operation. We have installed the generator into a standard ISO container with new controls, dry cooler, and exhaust, producing what is effectively a new package. Available for viewing at our works in Stone, Staffordshire.

### Standby Rating

These ratings are applicable for supplying continuous electrical power (at variable load) in the event of a utility power failure. No overload is permitted on these ratings. The alternator on this model is peak continuous rated (as defined in ISO 8528-3).

### Prime Rating

These ratings are applicable for supplying continuous electrical power (at variable load) in lieu of commercially purchased power. There is no limitation to the annual hours of operation and this model can supply 10% overload power for 1 hour in 12 hours.
